

SMASHING PROMOTIONS

Branding Anything Legal

Big congratulations to the **Protect Putiki** team on a successful 'pop up store' and fundraiser. Here at **Smashing Promotions** we are all about helping not-for-profits and charitable organisations like this get ahead. We don't charge for our services at all - we simply organise merchandise and branding through our trusted distribution channels, then get it up online (on our patented web platform) and take a % of the profits to cover the costs. This is a proven, tried and true method for spreading the word, promoting your cause, and raising funds. A win-win for all! Give me a call to find out how we can help - literally no \$\$ required from your end, (and no obligation to have a chat) - we do all the hard work for you!
